Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 50, 51, 53, 57-61 and 69 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohmer (US 6,056,059).

The claimed structure reads exactly on the reference's when the "traveling forming heads" (122,1520,1928), "piston/cylinder assemblies" (180,1510,1512,,1516,1518,1910,1927) and "latching sub" (208,210,212) of Ohmer are respectively considered as "drift", "displacement device" and "securing device" as recited. It is noted that the intended use, i.e., in a wellbore junction, is given no patentable weight since it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

3. Claims 50-56 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Freeman (US 6,681,862) (see "drift" 76, "displacement device" 86-87 and "securing device" 85 in Figures 8A & 8B).

Art Unit: 3672

4. Claims 69 and 70 are rejected under 35 U.S.C. 102(b) as being anticipated by Cumming et al (US 6,070,671).

The method steps read exactly on the Cumming et al reference when "expansion mandrel" 22 of the embodiment of Figure 4 is considered as a "drift" as recited.

Allowable Subject Matter

5. Claims 62 and 71-90 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

6. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

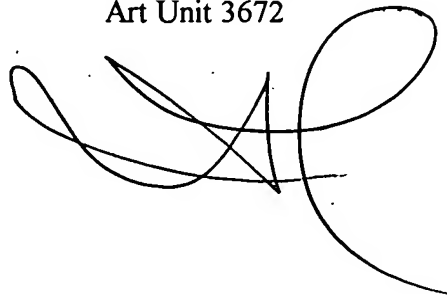

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Dang whose telephone number is 703-308-2149. The examiner can normally be reached on 9:15-5:45 Monday-Friday.
